The focused of our sprint 4 are building our system's API. We did not finished the building of the API because we are still in the process of configuring the spring boot backend. There will be seven tasks to be carried over in the next sprint.

Sprint Retrospective

What went well:

- There is a progress in our spring boot configuration.

What could be improved:

- Do the frontend while we wait for the backend set up to be done.

What needs to be done:

- Backlogs from sprint 3:
    - Notification API
    - Claim API
    - Authentication and User Management API
- Backlogs from sprint 4:
    - Image API
    - Admin Dashboard API
    - Match System API
- Proceed to Sprint 5
